Experience

Trilogy Education
Berkeley, CA (Remote)

Tutor and Learning Assistant
09/2020 - 01/2024

- Leveraged personal success and technical proficiency as a graduate to tutor current students in a rigorous bootcamp program, enhancing their learning experience and academic success.
- Utilized in-depth knowledge of the curriculum to provide targeted assistance, fostering a supportive and effective learning environment.
- Demonstrated passion for education and mentorship, finding fulfillment in contributing to the academic and personal growth of students.

Curative
Berkeley, CA

Medical Scribe and Assistant to the Site Lead
01/2021 - 07/2021

- Efficiently managed and recorded patient visits as a Medical Scribe, ensuring accurate medical documentation and supporting fast-paced vaccination efforts.
- Quickly advanced to assist in site management, improving operational processes and collaborating with healthcare professionals to enhance service delivery.
- Contributed to significant site achievements, such as being one of the most visited sites in Northern California by streamlining patient flow and supporting administrative tasks.
- Played a vital role in a critical public health initiative, demonstrating adaptability, organizational skills, and a commitment to community health.

Education

UC Berkeley Extension
Remote

Full Stack Flex Bootcamp
07/2020 - 09/2020

- I enrolled in this bootcamp during the summer before my sophomore year, aiming to acquire full stack developer skills in an accelerated environment. Throughout the course, I learned industry level web development languages, and gained experience of SCRUM practices with group coding projects. Upon completing the course, I was immediately offered a position within the company to assist other students on their bootcamp journeys.

UC Santa Cruz
Location

BA in computer science
09/2019 - 12/2023

- I was admitted to UC Santa Cruz in the fall of 2019 as a prospective computer science major. At the start of my sophomore year, I decided to take a year off to avoid online schooling. During my year off, I worked two jobs and earned a certification in Full Stack Web Development from UC Berkeley Extension. I completed my bachelor's degree in computer science during the fall quarter of the 2023-2024 academic year.

Summary

Full stack web developer and aspiring software engineer. Extremely fast learner and excels at problem solving when creating innovative user-friendly applications. Possess leadership capabilities and understands how to productively work in groups. Although I have great experience in the Full Stack realm, I am looking to pivot into other realms of the software engineering realm and am open to working out of my comfort zone.

Skills

Typescript · Javascript · Python · C# · C++ · Node.js · Next.js · React.js · Express.js · React Native · Html5 · Git · Mongo · SQL · Firebase · API endpoints · Sequelize · CSS · Tailwind
